# My unique accomplishments

<u>Café Downtism</u> for the first time in Iran, run by children with down syndrome and autism, welcomed by different institutions specially the UN and Iranian government as well.

The goal of establishing such a unique café was to promote Down children's and autist's status in the society and give people awareness regarding this forgotten people in the society. (2018, April-May)

I was invited to Maah Asal (the month of honey) talk show in holy month of Ramadan and TV Channel 2 aired a live show of the café.

I was also interviewed by Iranian international Jam-e Jam TV channel.

My Unique

Abiities in

relation to

children with

some cerebral

disabilities

- 1. I can easily teach music to children with cerebral disabilities, such as autism, blindness, Down syndrome, and other developmental disorders.
- 2. I can integrate these kind of people into the society and create job for them
- 3. I can create chain cafes such as 'Downtism' cafe, first established by me in the Middle East, all around the globe
- 4. I can promote these peoples abilities and prepare a ground for them to follow their own dreams in the society.
- 5. I can teach these people how to train others and make money.
- 6. I can give them self-confidence, self-belief, motivation. I like to change the look of the society at them as a disable person. I would like them to enter the society without any fear of looks.
